

Massimo

BRUNELLO DI MONTALCINO

"Massimo" ... A Brunello di Montalcino with many meanings. Born from the desire to produce something exceptional, where the attention to detail searches to honor this fantastic land, made of shapes, colors and atmospheres that are absolutely unique.

The name of this wine originates from the wish of the owners of Villa Le Prata to commemorate Professor Massimo Losappio who, upon coming to Montalcino in 1970 for a brief work experience, fell in love with this land, its colors, its harmony and its people.

Massimo loved his work which he carried out with continuous research, study and above all passion and love for his neighbor.

In 1980 Massimo bought Villa Le Prata, which once was the summer residence of the Bishop of Montalcino, and even earlier a hunting lodge of the Counts De Vecchi. As was in his spirit, his passion led him to buy vineyards in three different locations, with the ultimate wish to be able to comprise the most authentic atmosphere of the terroir of Montalcino in a single bottle. Today, thirty years after the start of the winery and a few years after its founder passed away, following in his footsteps, Villa Le Prata has decided to produce a limited number of bottles, only 600, selecting the best grapes from the estate and only in the best vintages.

"Massimo" is vinified in steel vats for about twenty days and ages for a period of five years in SHL French oak tonneaux.

It rests for six months in the bottle before drinking.
